EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, last line, replace "florescent" with --fluorescent--.

This is to correct an obvious typographical error.

Claims 1, 3, 5-9, and 12-13 are allowed. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, there is not taught or disclosed in the prior art a light emitting device where a laser emits a beam which excites a fluorescent reflecting member, a protective plate covers the laser and the reflective member, and the protective plate is the same material as the fluorescent material.

Regarding claim 13, the claim is allowed due to the limitation added by amendment, which the prior art fails to teach as noted by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
